Community owned glossary for Numerai terms

Why?

NumerAI Glossary?

Feedback

24d

I found NumerAI in a youtube ad in a youtube video of Stephen Wolfram talking about LLMs and physics. I am searching for a Glossary which describes terms which will help me understand NumerAI better. Currently when I read an online discussion or see a video about NumerAI, I encounter unfamiliar terms and then I cannot gain adequate understanding about the topics discussed (online or on YT).

There isn't one (currently), but what are some terms confusing you? Also...there is a Numerai ad on youtube?! We've gotta see that...

Why?

Pros:

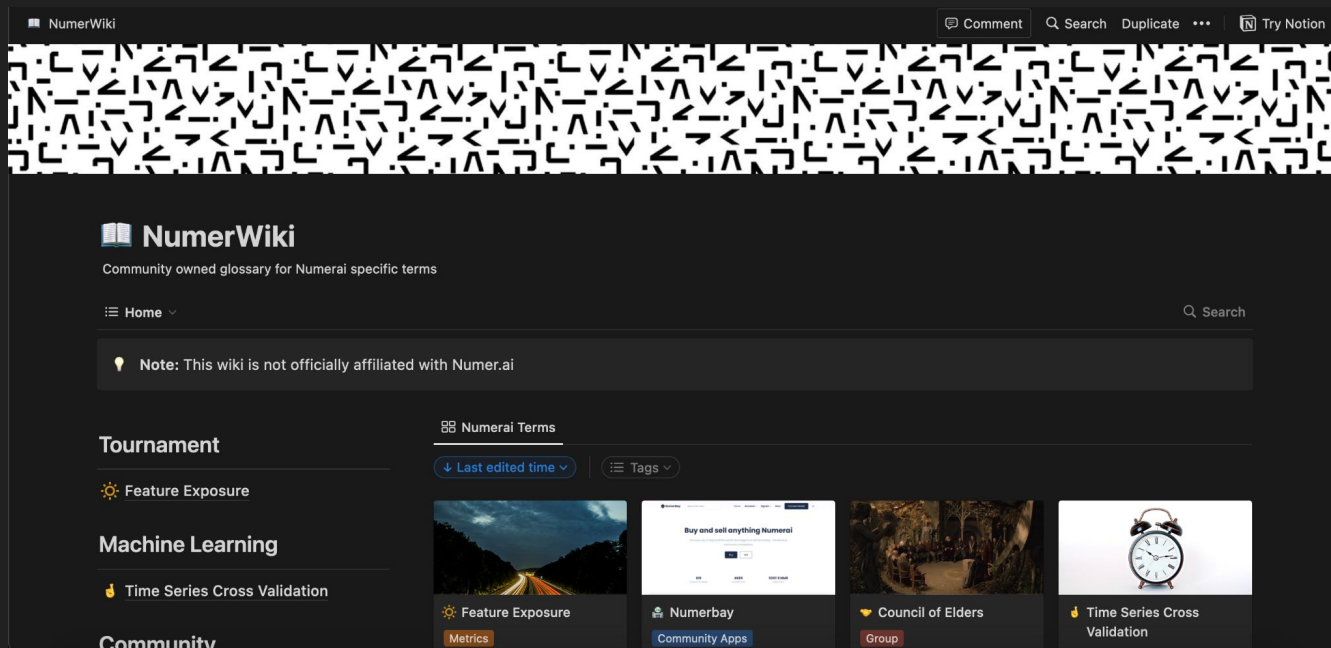

- Summarize and curate information for key concepts
- Starting point to facilitate deep dives into topics
- Information within context of Numerai tournament

Cons:

- Duplication of information
- Subjective topics

Walkthrough
