PROBLEM

***93% of
INVESTORS/TRADERS
fail before 5 years**

Challenges in Investment Decision Making

1.

Lack of Knowledge

Not knowing enough about a stock or asset & not knowing where to look.

2.

Too Much Information

Confusion caused by various sources of information & influences often contradict

3.

Biases Clouding Judgement

Overestimating abilities, preference for familiar, recent trends, endowment bias

4.

FOMO (Fear Of Missing Out)

Investing without due research & analysis, swayed by fear of missing a rally

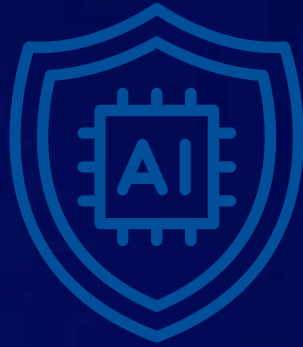

5.

Risk Aversion

Fear of losing money & market volatility delaying action &/or causing indecision.
