Decentralized AI Day New York

OCTOBER 10

LING LI • TIMOTHY DE LISE • SHATTEREDX • JASON ROSENFELD

MAIN QUESTIONS

01 **Who are you?**

02 **How long have you been in Numerai, and which competitions are you focused on?**

03 **What’s the one big Numerai mistake you made — and what did it teach you?**

BACKUP QUESTIONS / I

04 If you were starting Numerai again today from zero, what would you do differently?

05 What's something about building a good Numerai model that took you a long time to understand?

06 How do you decide when an improvement in validation is real versus when you're just overfitting your research process?

BACKUP QUESTIONS / II

07 What's one experiment, modelling idea, or rabbit hole you spent a lot of time on that ultimately wasn't worth it?

08 Looking ahead, what part of Numerai are you most excited about — and what would you most like to see improve?
