FT Labs Project (2017)

Text-to-Speech isn't *that* hard...

[[123, 55, 88], [09, 01, 91], [18, 243, 6], ...]

This isn't a new problem.

The image shows a picturesque view of the village of Matera in Italy. The village is known for its sassi cave dwellings and is a UNESCO World Heritage Site. The landscape is lush and green, with terraced fields typical of the Italian countryside.

In the image, there's a man standing on a staircase at night. He appears to be wearing a black top hat and has a beard and mustache. The man is holding a small handheld device, possibly a smartphone or similar gadget.
